

Waterbed Request Form

The structure of the homes were not built to accommodate waterbeds and by requesting to install a waterbed you understand and assume liability for property damage caused from installing, removing or day to day wear. The following provisions must be adhered to:

- 1. You assume financial responsibility for any damage caused to the quarters due to extreme weight or water leak.
- 2. If a water leak occurs from the waterbed and damages the surrounding neighbors' personal property you will also be held financially responsible.
- 3. Fort Carson Family Housing, LLC recommends you purchase a Renter's Insurance Policy to protect you and your family from financial hardship if problems occur - Make sure the policy covers "Waterbeds".
- 4. Sign and return this request to Fort Carson Family Housing, LLC., 7301 Woodfill Road, Suite 103, Fort Carson, Colorado 80913 BEFORE you proceed with your installation.

I meet the above criteria and request permission to have a satellite dish installed on my Army family home.
